

Share Your “Top Three Must See” Recommendations

East Bay Open Studios presents over 400 artists opening their ateliers, studios and galleries to the public, showing art as varied and diverse as our vibrant community. This Preview exhibition represents the largest and best cross-section of work made in the region. It’s a “living catalog” of artists’ work and a great way to find new artists to explore further during an expedition to June’s East Bay Open Studios.

We invite you to create your own “Top Three Must See” list from among the participating artists. You may also add a favorite nearby restaurant, bar, or other neighborhood gem as a pairing. We will be sharing Open Studio tour suggestions throughout the preview month on our website and Facebook.
